Branch Office in any other place. On the 17th of June, Mr. Tam Yik Kit issued a Notice in an Extra saying :- "The Lease of this Office will soon expire and a good day will be chosen to remove to some other place, and when this Business is opened in the new house, the name will be changed, and it will be styled Wah Tsz Tsit Po, &c., &c. This statement is ambiguous, but it is evident that the intention is to imitate the name of this office, and indeed thereby it may easily mislead the readers. Now as Mr. TAM YIK KIU is a Lessee, he may say that the torms of his lease has expired, but it is impossible for him to say the lease of this office will soon expire, for the true sense of Mr. TAM YIK KIU's statement would be :-- 'The Lease of the House occupied by this Office will soon expire, and consequently, it will be removed to another house. And besides, he says the name of this Office will be whanged and it will be styled Wah Tsz Tsit Po. From enigmatic language like this it requires a clear-sighted man to find out the truth. It seems like

an attempt to pass off a fish's eye for a Now to tell the truth, The Wah Tsz Tsit Po is a New Establishment of Mr. Tan-YIK KIU, and has no connection whatever with the Wah Tsz Yat Po; and hereafter Mr. Tam Yik Kiu has nothing to do with this Office at all, and Gentlemen are requested to distinguish this Office from his M. S. N. Co. Establishment.

The types of this Office have been in use for some years, and it is now arranged that when the Management of the Business is handed over to the New Lesses, New Type will be supplied and will be ready in a short time. The New Editor of this Paper has already elsewhere given great satisfaction in a similar position to all concerned; and New Types will be made, the Paper will be ten times more legible. It is boped that Subscribers will kindly keep up their sub- Galveston, for Newchwang. scriptions, and that Scholars and Merchants will all kindly put their Notices in the paper. This Office under its New Management looks to them for their Patronage and Support; and in Order to secure the same

THE CHINESE MAIL.

/THIS paper is now issued every day. I The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Ten Dollars Forty Cents in-

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course Godowns of the Undersigned, whence and/or derived from the native community, from the Wharves or Boats delivery may be amongst whom also are to be found guaranters and securities necessary Optional Cargo will be forwarded unless place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan .from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing a large and ever-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements.

HONORONG, THURSDAY, AUGUST 19, 1886.

WE remarked a few days ago upon the scheme propounded by the Supreme Board of Administration at Canton for 3.10 P.M.—Letters may be posted with obtaining funds for provincial needs; and we now publish, in another column, 3.30 P.M.—When the Post Office closes | a rough translation of the circular sent to the wealthy natives in Canton and 3.40 r.m.—Late Letters may be posted elsewhere from whom the money is expected.. Looked at merely as a matter on board the packet with Late Fee of 10 cents until time of of business, the offer made by the Provincial Officials is not likely to attract investors, whatever may be said for it The Austro-Hungarian Lloyd's S. N. Co.'s on the score of lovalty or natriotism. In effect the Notification asks for a loan at 3.6 per cent. per annum, without any guarantee as to the time of repayment If the money is not forthcoming, says the Tsung Kuli, or Board (speaking also, apparently, for the Viceroy and Gover-nor) it must be borrowed from the Oder (s)...... September 3, at noon. Foreigner. That is very probable, and Cassandra (8) Haesloop Siemssen & Co.......... August 27, at daylight. the Foreign lender would no doubt obtain from 7 to 9 per cent. But in criticising the amount of interest offered as an inducement to keep for ourselves' what would otherwise go to the Foreig- INSPECTOR Quincey returned from Canton ner, it may be supposed that we are naturally prejudiced. Let us, therefore, take the case of native investors themselves, and see what rates they can command with good security. If a Chilese places his money in a native bank, he | that the C. M. Co.'s steamer Chi Yuen obtains 7 or 8 per cent.; if he invests it | encountered the typhcon. in mortgages, he gots about the same amount; and even if he deposits it in a H.M.S. Rambler Commander W. U. Moore, foreign bank here, he obtains 5 per cent per annum. The interest offered to the

oval lender to the Canton officials is in this case no more than 3.6 per cent. payable annually, and not quarterly. As a business transaction, therefore this offer cannot commend itself to the shrewd mind of the native merchant or resident. This, however, is only one of the reasons why the proposed arrangement is one-sided. No certain time is named for the repay. ment of the principal. From the tone and wording of the Notification, it is evidently intended that no part of the money so advanced will be repaid until all the Foreign Loans are settled and done with. When that may be is problemetical enough; and no one can say that further Foreign Loans will not be negotiated; -but even when the millenmoney lent under the Notification be- instant. fore us are to be gradually made, and no course, it is needless to say that in the case of every special loan contracted in Western countries, a period is fixed for the repayment of the same. Can it be possible that the members of the Board Canacao. of Reorganisation in Canton have the funded debt of Great Britain in their mind, and that they purpose building up a permanent structure of 3 per cents. in order to facilitate the administration of the Province. If such be the case, then they are going the wrong way to work to establish the confidence of the people September. in the security of the investment. The weakness of the security is, perhaps, the Lu Asz was convicted, at the Police Court worst feature in the proposal. The lender, it is true, is to be supplied with s certificate of the amount advanced. surer and the Salt Commissioner ; and the Board will report the loan to the

occur to any one here that it would have been more satisfactory had the loan been obtained by Imperial Decree before, not after the money is advanced. That the Provincial Treasurer or the Salt Commissioner who may succeed the presentoccupant may disavow all liability is not an impossibility; and if the Central Government declines all responsibility, where is the remedy for the holders of these certificates? We have never yet heard of an action taken by a Chinese subject to recover from the High Authorities,

and are not likely to do so for some

time yet. Therefore, from a commercial

point of view, the offer made by the Administrative Board of Canton is not of a brilliant character. The considerations raised by this notification are not confined to the commercial aspect, and some of these we have already touched upon. It might serve to illustrate our meaning if wesuppose that the Executive Council of this Golony called upon the residents here to subscribe the Hongkong Loan upon the terms above referred to with the knowledge that those who failed to comply with the broad hint would find that they had made a serious blunder. If we suppose, further, that copies of these documents were sent to Foreigners in all the Coast Ports and Inland-which is not nearly so strong a case as that of sending this notice to Anglo-Chinese in the colonywith the unspoken and unwritten intention of coercing them to subscribe, then a glimmeriug of the audacity of this latest move on the part of the Canton mandarins may be obtained. The proposal, however, is far worse than any such case. The desire to maintain the fiction that Hongkong is still part of China is very strong with certain Chinese officials; and in proportion to the strength of that desire, and the impudent expedients adopted to satisfy it, should be the endeavours on the part of the British authorities to prove its injustice and absurdity.

THE Acting Attorney General had a complaint to make at the Criminal Sessions to-day of the troubles which the Police Magistrates gave him. At last Sessions he had a pretty important witness to bring forward in a case, but the evidence was not allowed by Justice Russell because the witness had not been previously examined at the Police Court. allowed to purchasers of Ten or more copies.

This Standard Work on the Chinese Language, constructed on the basis of Kanghi's Imperial Dictionary, contains all Chinese characters in practical use, and while alphapetically arranged according to the sounds of the oldest dialect of China, the Cantonese, it gives also the Mandarin pronunciation of all characters explained in the book, so that its usefulness is by no means confined to the Cantonese Dislect, but the work is a practically complete Thesaurus of the whole Written Language of China, ancient and modern, as used all over the Empire, whilst its introductory chapters serve the purposes of a philological guide to the student.

A Supplement, arranged for being bound and used by itself, and containing a List of the Radicals, an Index, and a List of Surnames, will be published and sold separately.
